

# Pressure Control Valves

Another Blend of Advanced Technologies  
for the Water Hydraulics Industry.

## Pressure Relief Valves

- Adjustable pilot operated
- Operates on 95/5, water and other low viscosity fluids
- Available as manifold mount, sandwich block or SAE flanged
- Size DIN 16 (10-85 GPM) to DIN 50 (180-650 GPM)
- Hard seat options

## Pressure Reducing Valves

- Two choices of piloting
  - Direct acting adjustable pilot
  - Air regulated actuation
- Operates on 95/5, water and other low viscosity fluids
- Available as manifold mount, sandwich block or SAE flanged
- Hardened seats
- Size DIN 16 (10-85 GPM) thru DIN 50 (180-500 GPM)

## Check Valves

- Hard and soft seat options
- All stainless internals
- Available as in-line flanged, sandwich mount, or cartridge
- Sizes DIN 10 (1/2") to DIN 200 (8")

Check Valve

Relief Valve

Reducing Valve
